## 1. OUR PRIORITY ISSUE IS:

## 2. HOW HAS THIS ISSUE BEEN TACKLED SO FAR?

---

---

---

---

## 3. WHAT COULD THE EC DO TO ADDRESS YOUR PRIORITY ISSUE?

### EXAGGERATION

(stretch your idea to its limits)

*E.g. What if ALL publicly-funded innovations had to generate clear social benefits?*

---

### INVERSION

(turn the typical approach upside down)

*E.g. What would it look like if policymakers became social innovators (and vice versa)?*

---

### TRANSLATION

(your idea builds on what is already happening elsewhere)

*E.g. What if we adapt the best private sector policy practices into useful strategies for the SI community?*

---

### INTEGRATION

(your idea into other mainstream approaches)

*E.g. What if social innovation became incorporated into all mainstream policy frameworks?*

---

### BUILDING

(e.g. new structures or mechanisms)

*E.g. What if we created entirely new matching-making platforms to connect policymakers with social innovators?*

---

### \*WILD CARD

(come up with a radical new idea)

*Be as pragmatic or as open-minded as you like here!*
