

**si2** SOCIAL  
INNOVATION  
ECOSYSTEM

A CONNECTION SPACE  
TO ADD AND MIX IDEAS.  
A PLACE FOR CIVIC INNOVATION.

## CONNECTORS

### SI2 SPACES

#### SPACES MOBILE

It proposes new uses for existing spaces, geotags your community and your work and meeting spaces.

#### PLATFORM

Virtual space to share resources, create working groups, launch challenges, seek synergies and support your project.

#### HUB

Workspaces.

#### EVENTS

Meetings to explain your ideas and get inspired by others' ideas. A connection space where you can meet other people.

## MAKERS

### SI2 LABS

Formulas and methods to generate ideas, mix knowledge and innovate .

## DEVELOPERS

### SI2 FUND

Workshops to explore new models of financing and promote new types of relationships between investors and entrepreneurs.

---

SIS is a network of people who, thinking in a different way, collaborate with each other and mix their ideas.

It is a platform to share knowledge, to take the initiative, to ask difficult questions and pursue challenging answers.

SIS is a movement to promote horizontal relationships face to face, that favours the value of ideas and whose objective is the common benefit.

SIS is a laboratory to investigate innovative ways of financing, based on new types of relationships between investors and entrepreneurs; to explore new types of incentives in the relationship between service providers and consumers; a place to generate value between companies, institutions and individuals.

---

There has been a cultural and values change; individuals and their wellbeing have taken centre stage. Consumer no longer have a passive attitude, but a more active role with the products and services they consume.

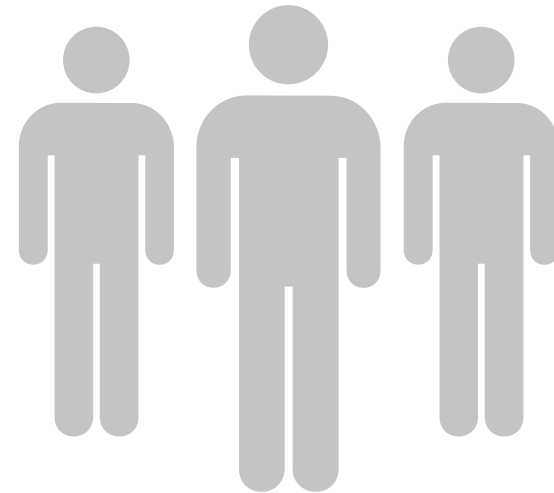

The shared knowledge may help to face, in an original and effective way, many of the challenges that surround us: a saturated public administration, an unequal access to resources, a changing society with new needs...

Individuals, thanks to the development of new technologies, have taken a power of action and organization they lacked before.

If we all share our ideas, if we learn together and put in common our findings about what works and what does not, the chances of success will increase..

Ideas are feed by ideas, and social innovation means working together, sharing, organization, decentralization, transparency, and, above all, being plural, neither close to anything nor anyone..

---

## PLATTFORM

VIRTUAL SPACE TO SHARE RESOURCES, CREATE WORKING GROUPS, LAUNCH CHALLENGES, SEEK SYNERGIES AND SUPPORT YOUR PROJECT.

---

Our online platform is a big network of social innovation that connects its members in real time from anywhere in the world. In this network you will be allowed to create your own contents, contact with other social innovators with your same concerns, access a marketplace to launch your social innovation projects, take profit to a compilation of best practices, contact with other people interested in practices of social innovation in Barcelona and know other programs for training abroad. The SIS online platform aims to encourage the interchange of ideas and the co-creation by connecting the supply of new projects with the real demand and needs.

## SPACES MOBILE

IT PROPOSES NEW USES FOR EXISTING SPACES, GEOTAGS YOUR COMMUNITY AND YOUR WORK AND MEETING SPACES.

---

It is managed from a mobile and computer application that is a space in itself where you can interact with other users, geotagging in real time where they are working or in which spaces meets a type of community more than another. It offers a directory that allows you to find in real-time spaces that are underutilized (museums, restaurants, libraries, civic centres...), giving them an added value. Spaces aims to respond quickly to the problem of lack of space for specific activities. Moreover, you will be allowed to tell other users what places are best suited for certain activities (meetings, workshops, celebrations...)

## HUB

### WORKSPACES.

---

Whether your head is full of good ideas or small ideas that could become a great project this is your place. The SIS HUB Barcelona wants to give a boost to the creative potential of this city, creating a community of social innovators eager to co-create together. The SIS HUB Barcelona will offer you co-working spaces that fit your needs. We are a HUB of Social Innovation, what means that we are much more than a working office or business incubator. We are a meeting point, we are a community to share knowledge and ideas, a place to sum small efforts where your skills are enriched by other people skills. In the SIS HUB Barcelona we want to give you access to all the resources you need to realize your potential: meeting rooms, exhibition spaces, technology, consulting... We are an incubator of ideas with an open, plural and respectful philosophy, where sharing and collaboration means participation.

The SIS HUB Barcelona is based on a dynamic model of belonging. Everyone who comes is a member and together we help to cultivate new ideas and implement creative projects.

## EVENTS

### MEETINGS TO EXPLAIN YOUR IDEAS AND GET INSPIRED BY OTHERS' IDEAS. A CONNECTION SPACE WHERE YOU CAN MEET OTHER PEOPLE.

---

**Event** - Quarterly, the SIS organizes an event to bring together people who want to stimulate their ideas and make them happen. These events are not a common conference where one speaker talks and the rest listen to, but they are a space of knowledge and co-creation. Events are open and dynamic sessions where participants explain another way of thinking and doing. Everyone collaborates to find innovative solutions to the proposed challenges.

**Micro-eventos** - Every now and then, the SIS coordinates micro-events to connect social innovators, introduce their projects and build community (forums of debate, webinars, speakers corner, sexy salad, barbecues) The goal is to find not only original projects, but also alternative ways of financing and create synergies between innovators and funders, to become a hotbed of new ideas.

FORMULAS AND  
METHODS TO GENERATE IDEAS,  
MIX KNOWLEDGE AND  
INNOVATE SOCIALLY.

## SIS LABS

SIS LABS ARE PROJECTS DRIVEN BY THE SIS WHERE PURSUING CHALLENGING ANSWERS THROUGH THE CO-CREATION AND INTERACTION OF DIFFERENT ACTORS WITH DIVERSE EXPERIENCES AND POINTS OF VIEW. SIS LABS IS AN INNOVATIVE PROJECT, AS IT HYBRIDIZES THE KNOWLEDGE AND COLLECTIVE INTELLIGENCE OF THE GROUP.

**Creative Challenge** - We want to generate ideas and concepts that respond to the proposed challenges.

**Marketive Challenge** - We want to develop specific actions to the challenges identified.

**Ad-hoc Challenge** - We organize activities for concrete organizations and challenges and also for specific communities (young people, women...)

**In-house Challenge** - We prepare internal trainings for organizations or companies that request it for their employees and stakeholders.

---

WORKSHOPS TO EXPLORE  
NEW MODELS OF FINANCING AND  
PROMOTE NEW TYPES  
OF RELATIONSHIPS BETWEEN  
INVESTORS AND ENTREPRENEURS.

## SIS FUND

THE SIS FUND AIMS TO FUND CREATIVE PROJECTS  
THAT INNOVATE FOR A BETTER SOCIETY.

---

On one hand, it is a tool to generate and find financial resources for social innovation and entrepreneurship, but not the conventional way. It uses new methods - e.g. community crowd funding or credits – and connects investors and entrepreneurs, giving priority to sustainability. On the other hand, it is a monetary fund itself. The SIS Fund will support innovative projects that come up from selection processes as the market challenge.

BECAUSE A NEW WAY  
OF THINKING AND FEELING REALITY  
IS NEEDED; BECAUSE MUCH  
REMAINS TO BE DONE, BECAUSE  
INNOVATE SOCIALLY IS NECESSARY  
TO FIND CREATIVE SOLUTIONS TO  
COMMON PROBLEMS.

THINGS ONLY CHANGE  
WHEN PEOPLE SEE AND THINK  
DIFFERENTLY.

---
